Adaptive RAG Test Pack - Page 3
Roadmap and risks:
Project Falcon launches on 15 June 2026 and adds anomaly alerts to ShelfVision.
Project Beacon launches on 30 July 2026 and adds multilingual dashboards.
Main risk one: delayed customer data mapping for enterprise accounts.
Main risk two: dependency on a single OCR vendor for receipt ingestion.
Mitigation: build fallback ingestion with template-based parsing by August 2026.
Security note: all customer exports must be encrypted at rest and in transit.
Compliance target: complete ISO 27001 gap review by 20 August 2026.
Testing focus: roadmap, deadline, risk, and mitigation questions.

Commercial terms summary:
Starter plan price: INR 45000 per month for up to 25 stores.
Growth plan price: INR 120000 per month for up to 100 stores.
Enterprise plan price: custom pricing with annual contract.
Payment terms: net 30 days from invoice date.
Discount policy: 8 percent annual prepayment discount.
Pilot duration: 45 days.
Success criteria for pilot: at least 95 percent image processing uptime and 20 percent faster audit closure.
Testing focus: pricing, policy, and success-criteria questions.
