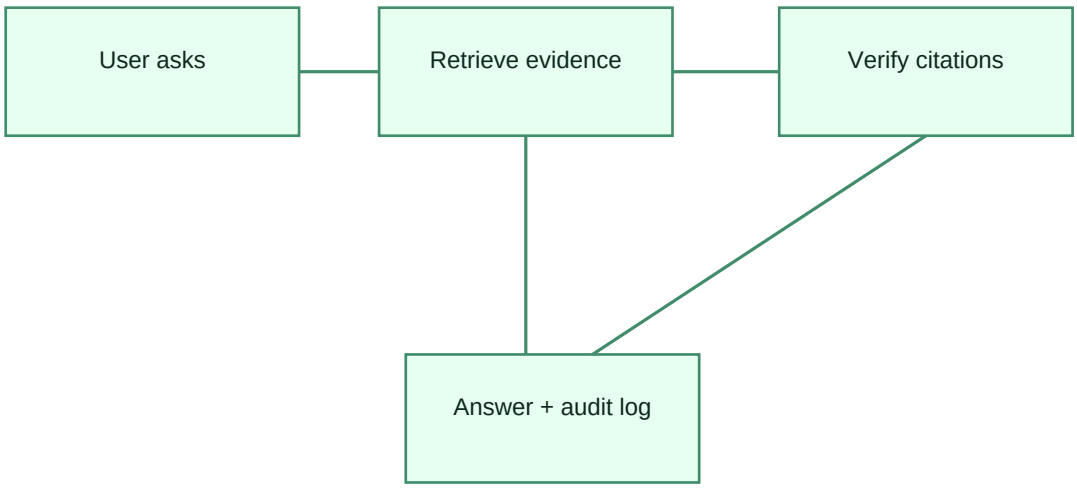
Enterprise AI Governance Policy

Demo enterprise RAG document: controls, audit evidence, process diagram

Policy owner: Chief Risk Office. Scope: employees using AI systems for customer support, legal analysis, finance reports, and internal knowledge retrieval. Effective date: 15 August 2026. Control objective: every high impact answer must have source citations and reviewer traceability.

Control ID	Control	Evidence	Frequency
AI-01	Source citation required	Answer log + citation IDs	Every response
AI-02	PII redaction	Redaction report	Daily
AI-03	Human review	Reviewer approval	High risk cases
AI-04	Model fallback	Provider event log	Incident



Ask: Which controls require citations? What audit evidence proves policy control risk was reviewed? Trace the policy control risk and compliance evidence.
